

Submission guidelines for Contributed Papers

Guidelines for the creation of your **manuscript**:

- To comply with the **double-blind review process**, uploaded files should be free of any reference to the authors.
- The **title page** (first page) of your manuscript should include the title of your paper and the logo of the Congress, followed by a structured abstract of not more than 300 words, followed by a maximum of five keywords. The structured abstract should include four parts:
 1. **CONTEXT** presents the background and relevance of the research;
 2. **OBJECTIVE** explains the objectives of the research;
 3. **METHODS** provides a brief overview of the materials and methods used;
 4. **RESULTS AND CONCLUSIONS** presents the main results and the interpretation of those results.
- Please be advised that Contributed paper submissions should generally not exceed **4,500 words** or word equivalent (not including the title page, tables, figures and references). Appendices are not allowed. Longer papers will not be excluded if the length is justified by the complexity of the research question or the richness of the results.
- Please use a serif font type such as “Times New Roman”, font size 12, line spacing of 1.5 lines, and normal margins (2.5 cm on all sides).
- Manuscripts should be divided into sections, each with a number and section heading. Use no more than two levels: sections and sub-sections.
- Footnotes should appear at the bottom of the page where they are inserted.
- Tables and figures should be placed in the text near their citation. Number tables and figures consecutively. Type captions with an initial capital only.
- For referencing, please refer to the style of the [European Review of Agricultural Economics](#). Collect references at the end of the manuscript.

Necessary additional information to complete the online submission:

- Title of the contributed paper.
- Author(s): name, ORCID, affiliation, contact details (for multi-authored paper: indicate the presenting author)
 - Presenting authors and their co-authors will be asked to evaluate other contributed paper submissions.
- Structured abstract (max. 300 words): should be repeated verbatim from your manuscript.
- Keywords (max. 5): should be repeated verbatim from your manuscript.
- Select max. 4 topics that best suit your contributed paper from a predefined list.
- Word count of the manuscript (not including the first page, tables, figures and references): should not generally exceed 4,500 words.
