

The **Land Economics Group** of **Prof. Dr. David Wuepper** at
University of Bonn

is inviting applications for a

Student Assistant (f/m/d)

We are looking for a highly motivated Master's student enrolled at a German University, working up to 8 hours per week, to contribute to our interdisciplinary research projects.

**Work
Description:**

- Collaborate with team members to support various research tasks as needed, such as:
 - o Assisting in the preparation and organization of datasets;
 - o Support geospatial dataset management for spatial analysis and visualization;
 - o Contribute to research efforts through literature review, information gathering, and project support.

Your profile:

- Enrolled as a student (Master) at a German University;
- Excellent organizational and communication skills;
- Ability to work independently and in a team environment;
- Experience in data preparation and manipulation using software such as R, Python, or STATA, as well as QGIS, ArcGIS, Google Earth Engine, or similar packages integrated within R or Python;
- Working knowledge of English.

What we offer:

- Integration in high-profile, high-impact, interdisciplinary research projects, contributing towards evidence-based policy recommendations to tackle global land degradation;
- Training/mentorship
- Flexible working hours;
- Possibility of combining the Student Assistant position with a master thesis project.

We encourage candidates from diverse backgrounds, including those with interdisciplinary experience, to apply.

We look forward to receiving a **max.1-page cover letter** (that includes your motivation for the position, relevant courses you took, and key skills) as well **as your CV** via email to: Solène Clémence, sclemenc@uni-bonn.de, **latest 3rd of June 2024**. Please include SA_LAND_ECONOMICS_Surname in the e-mail subject line. Shortlisted candidates will be contacted within two weeks after the end of the application deadline.
